### **Well Cell Secures \$16.8 Million Judgment and Permanent Injunction in Federal Court Victory**

HOUSTON, TEXAS – Well Cell Global LLC (“Well Cell Global”) proudly announces a landmark legal victory in the U.S. District Court for the Southern District of Texas. On May 14, 2025, Senior U.S. District Judge Lee H. Rosenthal entered a final judgment and permanent injunction against defendants for willful and malicious trade secret misappropriation and trademark infringement related to Well Cell Global’s proprietary Physiologic Insulin Resensitization® (PIR®) technology.

The court awarded damages totaling \$16,771,973.71, including actual damages, exemplary damages, attorney’s fees, prejudgment interest, and costs. Among other things, the permanent injunction prohibits defendants from using any form of Well Cell Global’s proprietary methods, disclosing trade secrets, or using its trademarks.

“This victory underscores our dedication to protecting our intellectual property and ensuring the integrity of PIR®, which drives our mission to provide physicians with effective treatment solutions for metabolic disorders,” said Scott Hepford, CEO of Well Cell Global. “We remain committed to supporting our licensees and defending our innovations,” he added.

For more information, including licensing opportunities as well as peer-reviewed medical journal articles about PIR®, visit [wellcellglobal.com](https://wellcellglobal.com).
