## Newsletter - September 2025

---

**Dr. Richard B. (Dick) Marchase — To present Sept. 30, 2025, at Baylor College of Medicine, speaking on insulin resistance and PIR®.**

**Lema Mousilli — Named a 2025 Texas Super Lawyer, her sixth consecutive year of recognition (2020–2025).**

---

**Dr. Richard B. (Dick) Marchase**

We are proud to recognize Richard B. (Dick) Marchase, Ph.D., Well Cell Global's Chief Science Officer, for his upcoming seminar presentation on September 30, 2025, at Baylor College of Medicine's USDA-ARS Children's Nutrition Research Center.

His talk, "Is the Rhythm of Insulin Delivery Fundamental to Overcoming Insulin Resistance?", reflects his leadership in advancing research on insulin resistance and PIR® (Physician-directed, Individualized Resensitization).

Please join us in celebrating Dr. Marchase's continued contributions to science and education.

**Lema Mousilli**

Well Cell Global congratulates Lema Mousilli, our intellectual property litigation attorney, on being named a 2025 Texas Super Lawyer. This is her sixth consecutive year on the list (2020–2025), a recognition based on peer nominations and professional achievements.

Lema's dedication to protecting innovation in healthcare and medical technology is central to Well Cell Global's mission. We are proud to celebrate her continued success!

Join us in congratulating Lema on this outstanding honor.
